Committee: Joint Interim Committee On Transportation  
Funding  
Measure, Appointment or LC 2  
Topic:

if common sense would prevail there would not be any need for all these new taxes for transportation. fire the transportation commission and all management at ODOT and start over again. step #2 is get rid of the DEI bullshit and those running it (save 30% right there). i worked for ODOT and i know how destructive it is. us working people cannot afford more taxes. probably just get in line with those other people leaving the state.
