

Submitter:	Michael Burkart
On Behalf Of:	
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

To whom it may concern,

I wanted to testify to the importance of funding our transportation system. I have a new driver this year and it scares me that maintenance operations would be impacted. The transportation network is the backbone of a thriving economy. From freight, to work access, to recreation, any negative impact to safety and operations would be detrimental.
