Topic: LC 2

I am writing in to oppose LC2. I am a born and raised Oregonian and am sick and tired of the mismanagement of funds our state has continued to do over the years. No new taxes on hardworking Oregonians barely able to make ends meet already!

We have some of the highest gas prices in the country already, registration & DEQ fees are at an all time high, wages aren't keeping up with inflation. I have watched as so many have had to move out of this state due to the poor policies and mismanagement of taxpayer money. Oregonians say NO to LC2 and NO to any new taxes!
