No NEW ROAD TAXES!

Any new taxes, especially payroll taxes, I feel are being used to fund projects that have no real benefit - you don't fix or even maintain the roads, always saying "we don't have enough money".... Well, I am not able to afford any more high-cost low return projects that you feel are "absolutely necessary". I work an average job, drive an older truck and am tired of the double speak and "we know best" attitude of elected people. At this point, if I could fire everyone who has been in office over 4 years and put in people who have no political experience I would.

Just in case it's not clear, I will vote NO every single time for ANY tax increase of ANY kind. You don't need more money, you need to be able to stick to a budget that has not been inflated, be accountable and show us where you spend our money, before you get any more.
