Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I could not be more against this transportation “funding”. Oregonians cannot handle more fees and taxes. Every dollar is being stretched more and more. Our property taxes alone in Washington County have gone up more than 30% in the past 7 years. Oregonians are OVERWHELMINGLY against all of this additional spending of OUR money and elected officials need to do their job by representing their constituents.

This transportation package should NOT be funded.
