Dear Governor Kotek and Oregon legislators,

May I suggest you dig deep into the funds already provided by Oregonians and learn to spend more efficiently. That's what all of us will have to do if this rate hike passes. We don't have the luxury to ask our employers for a raise. We always must feel the pain when the government decides it needs more money. That means we all have less money and some of us are already just hanging in there. Please consider who you may be hurting as a result of this and try to fund ODOT from existing Oregon tax dollars.
