Topic: LC 2

I am a practicing realtor. Imagine the increase in monthly business expenses with this bill. Or how about the uber drivers. Wont this affect their bottom line? or the delivery trucks for Amazon? My son who is disabled delivers Door Dash and Amazon packages. He will have a tough time affording his deliveries. all of these people will need to pass this on to their customers. I hope you consider how this will effect your reelection as well. I manned the Clackamas County Fair booth and we had 4 petitions. A steady stream of signers came to our booth. One of them was RECALL TINA KOTEK. I had both Republicans & Democrats signing the Recall petition. It is building momentum to have democrats registering and/or voting republican. You cant just be a dictatorship & pass laws without the citizens agreeing on this. Oregon already has a bad repudiation for poor management, for monetary delegation. We are constantly hearing people saying they want to move out of the state. How many businesses & citizens arE you willing to lose?
