Funding

Measure, Appointment or
Topic: LC 2

Cost of living in this state is already too high, these increases are a burden to all Oregonians. I know for a fact ODOT can use their funding much more effectively. Changing taxes at this level without representation is what sparked our country's revolution, it's disillusioning to think hundreds of years later our government holds themselves in such high esteem to do this with NO public vote and no time or space for the people to be heard.
