Topic: LC 2

Opposed.

I urge you to vote NO on the proposed transportation package that includes new taxes. Citizens and employers in our community are already facing high costs, from housing to utilities to everyday essentials. We simply cannot afford more taxes.

Adding additional financial burdens will hurt working families, small businesses, and local job creators. While transportation improvements are important, they must be pursued without placing more strain on taxpayers who are already stretched thin.

Please stand with the people you represent. No new taxes. Vote NO on the new transportation package.
