I am a fifth generation Oregonian. I was extremely disappointed in the open hearing earlier this week. All logging companies and city officials who are approving the increase of taxes for all Oregonians. This state needs SOLUTIONS that are long term that challenge the state to budget its spending. We should not be putting anymore money to non citizens and focus on those who live here and pay state taxes. You are making it impossible to live here and forcing your poor choices to be paid by us. I vote NO NEW TAXES. I am ashamed of the Democratic Party that is a majority in this state who is asking us for more money but has no accountability. We need a budget and AUDITS.
