On Behalf Of:

Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

I oppose LC2. The Oregon Government already has money that was to fund roads in 2017 by added taxes on the people of Oregon. Funds got redirected into other accounts. The funds didn't get used for what was intended. Lack of accountability for where is the roads, bridges that were to be done. We the people of Oregon have been struggling with all the taxes, increases in costs of food, electricity, gas, medical costs, insurance, pretty much everything except our limited money budget. People are having to decide which bill gets paid. Seniors, retirees, disabled people are on a fixed budget where are they to get all the extra money? I know of 3 families in the last 2 weeks that moved into another family's bedroom because they can't afford there own place anymore. The Oregon government needs to prioritize what are real necessities. Lots of wasteful use of our hard earned money sad to say. Lots of projects and programs not working. The people are not an endless source of revenue for the government to continue to waste. The Oregon government is destroying hard working taxpayers and the will of the people.. Most people cannot see the end of the tunnel when the Oregon government keeps taxing and increasing fees on everyday necessities to live.
