I have been a citizen of Oregon since 1976 and paid taxes this whole time. I served my country for 10 years, and I am outraged at the games the Democratic Party play, and in particular, her highness the governor. They refused to even look at or consider the ODOT plan presented by the Republicans. Make it make sense already. We have no sales tax but Oregon will find a way to get my money somehow.

The sad part is, I will retire soon, and the cost of this state leaves me little choice but to move to a more affordable state. Hence, you get no more of my taxes, Oregon.

The state is beautiful, but your politics make it ugly. I am just one of a growing number of hardworking people who are leaving this place for more conservative and family-friendly places.

NO MORE TAXES!!!!

NO MORE QUEENS!!!!!!
