I object to this bill. O.D.O.T has pilfered away and mismanaged funds to benefit higher ups, politicians, and lobbyists. They have done this by laundering, stealing and mismanaging our money. Now they want the taxpayers to pay more to get the same services we already paid for. Find another way, take it from some liberal minded b.s program that is also funded by us or cut and trim the fat somewhere else. Start out by terminating positions of those whom neglected to see the mismanagement or were involved in it, prosecute those whom have committed criminal acts, and don't punish those whom have already been taxed and charged into poverty by a horribly managed state government.
