I strongly object the Transportation bill being proposed. There are alternative solutions that would not have a negative impact on your constituents. If you were to live among us, I believe you would have a clearer understanding of the bill's detrimental effects. Its passage would decrease our standard of living due to a lack of funds. We are already heavily taxed, and I implore you to consider the alternative options that would not affect all voters if you wish to remain in office as governor. Thank you for your time.
