The increase in taxes has had no historical improvement. With a tax from marijuana sales of over 400 million and no improvements failed programs. yet still wanting to tax the citizens more. when we were told it wouldn't happen due to the increases of funds from marijuana sales. The Oregon democratic party has continued to lie to citizens. And still have the audacity to ask for more money. Cut your government wages to help offset costs. No more taxes. Oregon government. Needs to be audited.
