

Submitter: Vivian Kirkpatrick-Pilger
On Behalf Of: Transportation bill
Committee: Joint Interim Committee On Transportation
Funding
Measure, Appointment or Topic: LC 2

I oppose the LC 2 Transportatoon bill. There are unprecedented liberties given to government employees or entities to raise taxes in the future, and raises fees and every other tax it can reach.

This is not what Oregonians signed up for wanted or need. It is time to take your constituents needs into consideration. Oregon is one of (if not "the" poorest state) the poorest states in the union. After years of mismanagement and bloat in our state government its time to change up to smarter ways other than soaking the taxpayers for every last dime.

Do not approve this bill. Let us also remember that how you vote on things like this bill will have a direct impact on the mid-term elections.

Vote No on this "Transportation Bill".

Vivian Kirkpatrick-Pilger
