Topic: LC 2

It is time to stop continually raising our taxes in Oregon. This proposal amounts to a 5 billion tax increase on Oregon families that already have their budgets stretched to their limits. On top of that it does nothing to address the poor or mis-management of ODOT's budget, because throwing more money at a problem that hasn't been solved doesn't solve the issue. Oregon has become one of the least affordable states to live in compared to most of the rest of the U.S. and it's time for that to change. Let us keep our money and learn how to properly spend the tax dollars that you already collect from us.

Thank you,
Troy I Vanderhoof
