No new taxes! The raising of taxes and fees to compensate for bad planning and theft of oregon taxes payers cannot go on anymore. The fact is money is put into the general fund and is siphoned out with only a few people if any but the governor knowing where it went. This is not good government and all I hear from the governor is we won't be bullied. Who is "we"-? She will try and throw oregon under the bus with her medieval ideas with this absurd raise in taxes and fees with no regard to put our house in order.thank you Ellen nieminen clatskanie-or
