Funding

Measure, Appointment or  
Topic: LC 2

I am opposed to any new taxes when there are clearly taxes being spend on entities which needlessly erode our tax coffers - niche or pet projects that don't advance quality of life and security for all Oregonians. I absolutely am against increasing gas taxes, income taxes, recreational fees, etc. How is a young generation supposed to afford transportation and housing when costs are already prohibitive or limiting. Fix the budget by controlling unnecessary spending on frivolous entities.
