

Submitter: Debbie Davis

On Behalf Of:

Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

I have lived here my whole life and it has become very apparent that for the first time in my life I must consider moving out of this state.

Please consider the constituents you represent and vote for NO more taxes on this special session. Our governor is ignoring what we have continually voted for, fiscal responsibility, transparency and no more taxes. We are in the highest state for taxes with no accountability and fear mongering when we ask for there to be no more tax hikes.

In my home (as it should be in the government using my money) when I am over budget or have bills to pay, I reevaluate where my money goes and prioritize the needs. Im asking you to do the same, please prioritize the oregon citizens and be financially responsible and vote NO on more taxes.

Thank you for standing up for the citizens who you represent and not with the governor who doesn't care about oregon
