Funding

Measure, Appointment or
Topic: LC 2

To Whom It May Concern;

There are better ways to fund our state than by negatively affecting every driving person. We need to be better about managing the money our state receives and increasing or creating new taxes is not the right answer. As we have seen over the last few years the economy when in decline negatively impacts every business and every person in our great state. If our people are taxed more they have less resources to care for their families.

Please OPPOSE the "Road Tax" being proposed! It is NO GOOD for those in our state!

The money we have, when used properly, can fund what we need.

Thank you,

Tracy McKenzie
