Please NO new taxes. Oregonians are being taxed out of their businesses and homes with us already paying some of the highest taxes in the country. Companies and families are leaving Oregon because it is already too expensive to live here. Oregon has the lowest education scores with the highest money spent per student. Oregon needs a better governing body who cares about all people not just their own special interest groups. Oregon government needs to stop driving all of us who live here into even more of a poorhouse because living here already the majority of Oregonians are barely making it. Stop putting a band aid on the issues and fix them. Stay within a budget and make do with the money they have like most Oregonians have to do. NO NEW TAXES!
