Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Dear Committee,

I am opposed to raising taxes on working Oregonians. One does not solve a spending problem with infinite funding. There is no way in which raising taxes and fees helps the working middle class.

You already had the open session, and the outcry was clear- citizens want you to operate within your budget. With record revenues, spending more than you have is not sustainable.

Please do better, if you can.

Sarah Furber
