I am writing opposition to the transportation package. No more taxes, until the states can show they use tax payer funds effectively and not wasting money no more taxes should be stolen.

All we here from the governor is that oregonians are hurting from our Governor, but yet the liar in chief wants to make Oregonians hurt even more. This is a slap in all oregonians faces.

Im sure you have received a resounding opposition to this, and as usual our voices will be ignored. Fix the internal problems first, then see if more funds are needed and let oregonians vote on it.

Lastly no agency besides the legislation should be raising taxes such as odot.

Thank you

Jeff Mack
