Our transportation system has consistently received more and more tax and fee revenue while consistently failing to deliver on the vital priorities voters expect ODOT to deliver on. Project after project has taken much longer to deliver without any accountability. Recently ODOT made a massive error that has led to a billion dollar shortfall - for which no one was held accountable. We will never get accountability and results if we raise fees and taxes on Oregonians and just keep feeding the bureaucracy that fails, especially when regular working folks are struggling to make ends meet. Please vote NO on this transportation package.
