Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

I live off of 167 and Powell and odot has not done anything good for my neighborhood. They cut down hundreds of old growth trees down Powell that I think they should be prosecuted for. And the projects that they are projecting aren't even from locals they're written up by people in New York in Florida we are wasting money outside of our own state. We should not be raising taxes at all. We should be lowering taxes. We should get rid of property tax we should get rid of the art tax we should split O.into transportation and roads we haven't had a good state since 2003. Democrats have ruined the state since 2006. We should not have higher taxes lower taxes. And if you wanna raise taxes raise them by 40% on property developers on farmland or any property developer targeting a single-family home text them.
