The WHY

- Every year there are changes to the CCO contract, that are outside of the multi-year procurement.
 - Over 200 proposed changes in the 2024 annual reinstatement; 23 amendments changes that were “significant changes”
- CCOs are asking for transparency not only into what is necessitating the changes, but on the process to provide feedback and timelier guidance on implementation.
- HB 2209 addresses these concerns

The Resolution

- OHA and CCOs are working on creating a process, outside of a bill, using structures already in place to add the clarity and accountability.
- For the 2026 reinstatement we are asking for:
 - OHA to maintain a timeline that encompasses the process from introduction of changes to implementation guidance
 - Implementation guidance at least 60 days in advance of launch date for new benefits or significant changes
 - Opportunity to provide feedback in a meaningful way close the feedback loop
 - Identification of what is necessitating the change and impact to the CCO
 - Revisit of the process
- The opportunity for the legislature, is keeping apprised of these changes.
