BACKGROUND:

The [Health Facility Licensing and Certification Program](#) (HFLC), housed within the Oregon Health Authority (OHA) is responsible for regulating hospitals and other types of non-long term care health care facilities and agencies. [ORS 441.020](#) sets the annual license fees that hospitals must pay to OHA. Current annual hospital license fees range from \$1,250 to \$12,070.

Senate Bill 842 increases the annual license fee that a hospital must pay to the Oregon Health Authority (OHA), makes information obtained during an intake, triage, or investigation of a complaint confidential, and allows OHA to accept federal certifications and accreditations in lieu of in-person inspections if a facility provides summary documentation within a specified timeframe.
