Brief and Recent History

Oregon tax was connected to Federal Tax Credit

from 1987 to 2001 Oregon Tax = Fed allowed credit for state tax

2001 Federal law phased out the federal credit

Oregon remained tied to the 1997 calculation of the credit

Current Oregon Estate Tax is the result of a rewrite in HB 2541 (2011) after study and recommendations from the Oregon Law Commission and significant legislative work.

- Structure was shaped by calculation of federal credit,
- Uses definitions (e.g. definition of “Gross Estate”) in federal law for 2010

- This generally groups estates that had similar applicable laws

Estate Tax Returns are Due 12 months after decedent’s death (was 9 months before 2022)

- An extension of six months is available
- If an executor is outside the U.S. and filing is impractical, and additional extension may be available
- Consequently – Tax Return Data is “complete” two years after a tax year

Estate Tax Payments are due 12 months after decedent’s death

- Payment extensions are permitted under special circumstances (payments after due date include interest)
