History

SoS Audit Recommendation

Summary of Secretary of State Audit, 2018 Recommendation #1:

- Identify options, and seek funding, for the acquisition and implementation of an enterprise eProcurement system that would provide purchase data of sufficient detail to allow for robust spending analysis and identification of opportunities for strategic sourcing and cost reductions.
- Additionally, develop processes to ensure the results of this analysis are available to agencies, legislators, and the public.

OregonBuys

OregonBuys is a technology-enabled procure-to-pay solution that allows the state to procure goods and services at the best value while capturing data and increasing transparency.

OregonBuys: One unified system—modernizing state procurement

OregonBuys - History

OregonBuys Program began with three agencies' shared vision in 2014:

- Concept evolved into 10-agency collaboration, with each agency contributing project resources:
 - Department of Administrative Services
 - Department of Consumer and Business Services
 - Department of Human Services/Oregon Health Authority
 - Department of Education
 - Department of Fish & Wildlife
 - Department of Forestry
 - Department of Revenue
 - Department of Transportation*
 - Secretary of State
 - Judicial Department
- Participating agencies established business requirements and conducted a Request for Proposal (procurement facilitated by DAS).
- During 2017, the program established governance, executed a price agreement with vendor, and executed Work Order for Oregon Instance Project.
- Oregon Instance Project kicked off in January 2018 and completed December 2018.

Operations Today

Governance

OregonBuys Steering Committee:

- Makes project decisions impacting implementation scope, schedule, or budget.
- Reviews risks and provide recommendations on mitigation strategies.
- Meets quarterly (more often if needed).

OregonBuys Advisory Council:

- Provides insight and recommendations on system processes and functionality.
- Members consist of Procurement, Accounts Payable and Finance representatives.
- Meets monthly.

Increased Transparency

The screenshot shows the OREGON Buys eProcurement System search page. At the top left is the logo. A search bar contains "Search..." and a dropdown menu set to "Bid Solicitation". To the right of the search bar is an orange "Advanced" button with a magnifying glass icon, labeled with a red "1." and an arrow. Below the search bar is a green "Advanced Search" button. To the right are "Supplier Registration" and "Sign In" buttons. The main search area contains several fields: "Document Type" (a dropdown menu set to "Bid Solicitations", labeled with a red "2." and an arrow), "Match Criteria" (a toggle switch set to "All"), and a grid of search filters including "Bid Solicitation #", "Alternate ID", "Description", "Item Description", "Organization" (dropdown), "Department" (dropdown), "Buyer" (dropdown), "NIGP Class" (dropdown), "NIGP Class Item" (dropdown), "Type Code" (dropdown), "Opening Date From", "Opening Date To", "Status" (dropdown), and "Bids in Category" (dropdown). At the bottom are "Search" and "Clear" buttons, with the "Search" button labeled with a red "4." and an arrow. A red "3." is placed next to the "Bid Solicitation #" field.

Bids can be viewed without a login.

- On <https://oregonbuys.gov>:
1. Click the word “Advanced” next to the top search bar.
 2. Select “Bids” in the Document Type drop-down.
 3. Enter keywords or info into the search fields.
 4. Click the “Search” button.

Electronic Responses

Electronic Responses to Solicitations in
the Latest 12-Month Period:

ORPIN
8/1/20 – 7/31/21

OregonBuys
2/1/24 – 1/31/25

**Manual
Response to
One Solicitation**

Benefits

- Tracks spend and provides data.
- Automates Procure to Pay process (including approvals and workflow).
- Online catalogs and selection from statewide price agreements.
- Provides self-service tools for vendors.
- Automates RFP/Bidding process.
- Transparency of solicitations (Bids) and completed contracts (Blankets).

Looking Ahead

- Creating plans for data analysis that will feed into strategic sourcing efforts.
- Supporting and continuing to work with agencies and users.
- Partnering with the contractor to leverage technologies for procurement best practices.
- Identifying avenues for publicizing data.
