EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

With the passage of House Bill 3650 (2011) and Senate Bill 1580 (2012), the Legislative Assembly established the coordinated care model for delivering care to Medicaid recipients in Oregon. With a focus on primary care and prevention, coordinated care organizations (CCOs) are local networks of providers that have agreed to work together under a budget that combines physical, oral, and behavioral health services. Senate Bill 725 (2013) required that the contract entered into between OHA and a CCO be for a term of five years, with only one permitted amendment during each 12-month period, unless the amendment is mutually agreed to or required by federal or state law. There are currently 16 CCOs providing Medicaid coverage to over 92 percent of Oregon's 1.4 million Medicaid enrollees.

House Bill 2205 A specifies that contracts between the Oregon Health Authority and coordinated care organizations (CCOs) shall be for an initial term of no less than five years and that the contract length shall be the same for all CCOs.
