BACKGROUND:

Alabama, Pennsylvania, Rhode Island, and West Virginia are among states that have established or are in the process of starting Ireland Trade Commissions. As of 2023, Oregon exports to Ireland are the fourth highest of any U.S. state, with roughly \$1.25 billion in exports, and \$601 million in imports, with computer and electronic products, and chemicals, being the largest product categories. According to 2023 five-year American Community Survey estimates, roughly 10.8% of Oregon's population claims Irish ancestry. Ireland had a population of over 5.1 million in its 2022 census, is a member of the European Union, and its statistics office cites a 2022 GDP equivalent to roughly \$527 billion.

Senate Bill 961 A establishes the Oregon-Ireland Sister State Committee.
