House Bill 2988

Sponsored by Representatives HELM, OWENS (Presession filed.)

SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure **as introduced.** The statement includes a measure digest written in compliance with applicable readability standards.

Digest: The Act tells an agency to do certain things related to aquifers. The Act tells the agency to make a report related to aquifers. (Flesch Readability Score: 60.7).

Instructs the Water Resources Department to take certain actions related to aquifer recharge and aquifer storage and recovery.

Instructs the department to report to interim committees of the Legislative Assembly on topics related to aquifer recharge and aquifer storage and recovery on or before October 1, 2026.

A BILL FOR AN ACT

2 Relating to aquifers.

- 3 Be It Enacted by the People of the State of Oregon:
 - <u>SECTION 1.</u> (1) In consultation with the Department of Environmental Quality, the Oregon Health Authority, other state agencies and interested parties, the Water Resources Department shall identify and reduce barriers to, and develop technical assistance resources to support, expanded beneficial aquifer recharge and aquifer storage and recovery in Oregon.
 - (2) To carry out the purpose described in subsection (1) of this section, the department shall:
 - (a) Identify and describe the types of projects related to aquifer recharge and aquifer storage and recovery that can support water quality, water supply or use and habitat or ecosystem needs in this state.
 - (b) Identify regulatory and other impediments to expanding aquifer recharge and aquifer storage and recovery.
 - (c) Identify any environmentally protective approaches that other states with robust aquifer recharge and aquifer storage and recovery programs have successfully employed that could be established in Oregon.
 - (d) Identify any regulatory changes that are needed in order to carry out the purposes described in subsection (1) of this section, including any changes to internal guidance, rules or laws.
 - (e) Develop a proposed schedule for enacting any regulatory changes identified pursuant to paragraph (d) of this subsection and enact the changes, to the extent the changes are under the jurisdiction of the department.
 - (f) Develop guidance related to technical assistance and other resources that can support permitting and the development of aquifer recharge and aquifer storage and recovery programs.
 - SECTION 2. (1) On or before October 1, 2026, the Water Resources Department shall submit a report, in the manner provided by ORS 192.245, to the interim committees of the

- Legislative Assembly related to water on the promotion of aquifer recharge and aquifer storage and recovery in Oregon.
 - (2) The report must identify the following, at minimum:

- (a) Recommended changes that state agencies can make to internal policies, guidance and processes.
 - (b) Recommended changes achieved by amending existing rules or adopting new rules.
 - (c) Recommended changes achieved by amending existing law or enacting new laws.
- (d) Programmatic needs that would remove impediments to, and support access to and acceleration of, aquifer recharge and aquifer storage and recovery.
- (e) Available and needed technical assistance resources and incentives to support the evaluation and pursuit of aquifer recharge and aquifer storage and recovery.
- (f) Resources needed by state agencies to effectively implement aquifer recharge and aquifer storage and recovery.
- (g) Funding mechanisms that may support staffing needed for projects related to aquifer recharge and aquifer storage and recovery.
 - (h) Federal and state funding programs that can support the projects.
- 17 SECTION 3. Section 2 of this 2025 Act is repealed on January 2, 2027.
