

# Senate Bill 333

Sponsored by Senator SMITH DB (Presession filed.)

## SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure **as introduced**. The statement includes a measure digest written in compliance with applicable readability standards.

Digest: The Act would let owners of land form a district in order to pay the costs to the county of staving off damage to their land caused by predators, by both nonlethal and lethal means. (Flesch Readability Score: 60.1).

Authorizes landowners who meet certain criteria to petition for formation of a predator damage control district as a funding mechanism to pay the actual costs to the county of preventing, reducing and mitigating damage to property from predatory animals. Defines "prevent, reduce and mitigate damage to property from predatory animals" to include both nonlethal and lethal methods of prevention, reduction and mitigation. Establishes presumptive charges of \$2 per acre for tax lots of 10 or more acres and a \$50 flat rate charge for tax lots of less than 10 acres. Creates a cause of action under the district program for counties, landowners, districts and cities involved in the program.

Takes effect on the 91st day following adjournment sine die.
