

Submitter: Valerie hunter

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB867

This is not right to pass something the people have not voted on. We want to be heard. We want my the choice to choose where our kids get an education. Instead of trying to bandaid a system. Fix it please. You be the bigger one , you start being the one that leads the change and find a way to have a state properly manage there systems.

The blues brought us into this state now we just need to all come together and get our schools and children back as a priority . You can not force that toy have to often choice and correct the issues for them to come back.
