

Submitter: Brian Stewart

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3119

I am writing to strongly oppose HB 3119. The Advanced Clean Truck regulations are critical to clean up our air, protect vulnerable populations from the toxic pollution from diesel trucks and to protect our environment. Please do not let these important regulations get delayed, watered down or overturned. Thank you.
