

Submitter: John Brooks

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

As a farm business owner, community member and citizen I strongly oppose the bill to outlaw diesel engines. There is no plan, no infrastructure, nothing to support this knee jerk reaction to an environmental issue with so much conflicting evidence from all sides.

Proceeding forward with this bill is a direct attack on the hard-working Americans who represent the foundation and backbone of America's working-class, whether it will impact their job or their bottom dollar it will not result in HELPING the people you claim to represent and fight for.

John Brooks
