

Submitter: Suzanne Volz

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I endorse House Bill 3119, which proposes a delay in the implementation of the Advanced Clean Truck rules. This legislation will likely result in increased financial burdens for my family and me. Furthermore, it will impose significant costs on owners of diesel vehicles, potentially necessitating the premature replacement of their current vehicles.
