

Submitter: William Howell

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Hello Committee members:

I am an average small business owner and also own farm land in Union County.

Bottom Line: We use many trucks and farm equipment that are diesel fueled. In our environment and location diesel fueled machines are a necessity. The notion of restricting equipment we must have to operate is nothing short of absurd.

I support fully HB 3119 to hold back Oregon's intentions to restrict the use of diesel powered equipment. Oregon MUST move away from it's crash vector based on CO2 as a greenhouse gas. It is not.

Please support HB3119 for all of us.

Thank you

Curt Howell, Union County
