

Submitter: Ian O'Connor

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I am a lifelong resident of Oregon born and raised in NW Oregon. I am strongly opposed to a ban on diesel engines in any way shape or form and support HB3119 to prohibit the Department of Environmental Quality from implementing or enforcing the Advanced Clean Trucks regulations. Banning diesel vehicles and fuel is bad for all Oregonians and will have serious negative economic impacts. We all rely on diesel powered vehicles for everything from transporting goods city to city, to catching fish, to farming and beyond. I urge the legislature to support HB3119.
