

Submitter: Jeff Eynetich

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I run 17 trucks here in the northwest region only.... most of our trucks are 2019-2024 and very clean burning units. I feel forcing people to have to make a choose in what to buy is unconstitutional ...I also feel the infrastructure for electrification on large commercial vehicle is not even close to being applicable for the mandate at hand....
