

Submitter: Mary Jo Davies

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I am writing in support of HB3119. It is concerning the delay of the implementation of the Advanced Clean Trucks Rule. Oregon is not at all prepared to go EV. We do not have the infrastructure in place. This will impact our commerce and food supply throughout Oregon. our economy will also take a huge hit and we will not be able to compete with other states in supplying goods and food to the nation. The original Rule is a terrible hit to Oregon. At least SB3119 will give everyone time to try and figure out all the implications before going forward. Please back SB3119.
