

Submitter: Grace Willis

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3173

OregonFlora provides essential resources and information to people in many different fields, allowing them to easily find and utilize information about the plants they are working with. These tools are continuing to grow with the addition of the Rare Plant Guide which will further assist those in the conservation and restoration fields, and resources such as this should continue to be produced and freely available to the public.
