

Submitter: Jennifer Rossetti

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

We do not have the infrastructure in place to promote the use of battery or EV technology. Our grid simply cannot handle it.

This bill ignores the diesel engine manufacturers dedication and progress in efficiency and cleaner burning engines.

Oregon legislators will be closing business, raising operating costs, and jobs will be lost.

And our goods and services will have increased costs as well as chaos in the Oregon delivery structure.

I ask that you join Oregonians and support the postponement of this bill.
