

Submitter: Julie DiLeone

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I urge you to vote against this bill. Diesel pollution is a serious issue in my north Portland neighborhood. All of the outdoor surfaces get covered in a black soot. This is most likely from diesel pollution from Columbia Blvd and the freight trains. The state does not have any power over the railroads, making a reduction in diesel from vehicles crucial for public health. Cancer rates are higher among people in their twenties and thirties, and air pollution is likely contributing to this.
