

Submitter: Ally Townsend

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I do not support the Clean truck Regulations. Putting through rules such as California did will only harm trucking, farming, etc., by increasing cost of production.

Additionally, our power grid is not strong enough, nor are the electric vehicles reliable enough to get rid of our diesel trucks.

The diesel trucks last a long time and are clean.
