

Submitter: Steve Gilkison

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Unbelievable how much this bill would affect every worker and business in Oregon. Will effectively shut down industry across most of the state. Wish the powers that be could actually think before ever coming up with a plan to be like California. One can see how this type of thinking has changed lives and ability to utilize necessary means for protection of citizens.
