

Submitter: SHIRLEY Jones
On Behalf Of: HB3119
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3119

On behalf of Oregon citizens across the state, implementation of Advanced Clean Trucks regulations will kill almost all commerce in Oregon, disable all DOT road maintenance, cripple emergency capabilities, and force every person in Oregon to pay more for everything that comes into the state for sale. Everything that sells in Oregon travels by truck. Everything that leaves Oregon leaves by truck. This state lives by the truck. If this bill passes, you will kill Oregon as surely as if you dropped the bomb by your own hand. You will destroy Oregon. Please re evaluate your planned legislation.
