

Submitter: Amy Davis

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Please do not put the Advanced Clean Trucks bill in to effect. This will be disastrous to Oregon, its economy and the people who voted for you. Do you know that your food is delivered in a DIESEL SEMI TRUCK, that your beverages are delivered in a DIESEL SEMI TRUCK, the goods you buy at the stores are delivered in a DIESEL SEMI TRUCK?!? Also, diesel fuel is the cleanest burning fuel already! Oregon will lose businesses, tax money, gas taxes, and people will leave Oregon to go work where they can keep their jobs.....this bill will shutter Oregon to the ground. Stop following California, have you not seen what is happening there? They are not the model for prosperity and a thriving State. My family, including my parents, have lived in Oregon for over a hundred years, and I have never been more ashamed of the direction we are heading. My brother drives a DIESEL SEMI TRUCK everyday, delivering foods to restaurants, schools, nursing homes, camps, etc. it will shutter the industry he has worked in for almost 30 years. Please vote for HB3119 and bring some common sense back to Oregon
