

Submitter: Ken Paul

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB3119

By allowing the advance clean trucks regulations to pass would put millions of businesses out of business mine included . This is a far reach of a government over reaching its authority. Logging companies and other companies that is a life line for this state would be affected . My support is for the bill for delaying this regulation .
